May 29, 1895.

If it had not been for the excellent quality of coffee produced in Kona, it is not likely that foreigners would have been induced to invest their capital in lands in that district nor would the building of a telephone line, such as the new company proposes to construct, have had an existence even on paper. It's the fact that the locality produced in a small way and in the most primitive manner an article which caught the fancy of "canoosers" in the matter of coffee: they wanted more and they were willing to pay a good price, but there were no means of getting it. Investigation demonstrated that the land would produce an unlimited quantity, but the people in the vicinity had not given the proper attention to the cultivation, you all know the result, foreign capital came in and is coming every day, and before another decade the production of coffee will be a leading industry of the islands and the machinery used in pulping, cleaning and putting it through the various processes necessary to make it marketable will come through us. And why? Because we are interested in the coffee business; we know what is wanted and we secure the very latest improvements in coffee machinery. What is good enough for one man may not be good enough for another, but our stock of implements for the coffee business is good enough for all. The industry is still in its infancy and the growers do not know themselves just what they require, but if they will communicate with us, we can give them the necessary information.

The Helen Brewer brought us what charcoal irons will be needed during the next few months and the price is just what the condition of affairs here warrants. There was a time, not many years ago, where a single charcoal iron cost \$5.00. In those days it was a luxury to own one, now it is a necessity and the low price we charge for them enables every one to have one.

We've never done much in the way of Refrigerators because the town seemed to be well supplied, but the prospects for a reduction in the price of ice warrant our carrying a few to accommodate people who want a really superior article—something they may depend upon to keep their meats and vegetables in during the day and over night without spoiling. It took an Eastern man to devise something a little better than any other inventor could produce—and we sell them.

For people who live out of town and wish to maintain their own telephone lines we wish to recommend our Long Distance Telephone and Chicago Magneto bells. With these instruments a conversation may be carried on between parties at almost an unlimited distance from each other. We have all the necessary articles used in the construction of private and public lines of telephones and can supply them at the lowest rates.

Among the articles received by the Helen Brewer are Brass Pipe Fittings—Galvanized Pipe and fittings—and Genuine New Bedford Cordage. If you are interested in galvanized pipe get a quotation from us.

E. O. Hall & Son,
Fort & King Streets.

From the Baby Up

to the grand parents, the whole family can derive comfort, health and happiness from the great temperance beverage, Hires' Root Beer. It is pre-eminently a home requisite—made at home and drank at home. Its delicious flavor, its sparkling effervescence, and its remarkable health-giving qualities, make it invaluable as a refreshment for the children and the grown-up folks. It is not only a strictly temperance beverage, but a drink that satisfies every thirst; toning the stomach, building up the system and creating an appetite for good, healthful food. There is only one genuine

HIRES' ROOT BEER

A pure, healthful and honestly-made extract of Nature's best Roots, Barks, Herbs and Berries—Hires' Root Beer.

A Package of Extract makes Five Gallons of this Delicious Drink.

Made only by the CHARLES E. HIRES CO., Philadelphia, U. S. A.

Testimonials:

"Your Root Beer is excellent as a beverage and acts like a tonic. I would have no other. We use it on our table all summer instead of tea or water."—Rev. M. L. Anderson, Pittsburgh, Pa., U. S. A.

"I do not know how we should get along without your Root Beer. We have used it for a number of years and think it the most delicious drink, and so simple to make. My father sells a great many packages, especially during the warm weather."—Mrs. E. W. Clark, 231 Shawmut Ave., Grand Rapids, Mich., U. S. A.
